## Using this Document

The Ohio Standards for the Teaching Profession guide teachers as they reflect upon and improve their effectiveness throughout their careers. Similarly, the Ohio Standards for Principals promote leadership and provide guidance for principals' reflection and improvement across the span of their careers. Also, the Ohio Standards for Professional Development define effective professional development as an ongoing, systematic process, linked to the daily practice of educators and based on data-driven needs. They guide organizations and individuals in selection of high quality professional development to meet their varied educational needs.

As mandated by Senate Bill 2, following release of the *Standards for Ohio Educators*, a subcommittee of the Regional Local Professional Development Committee Support Team developed standards-based criteria for Local Professional Development Committees (LPDCs) to use to evaluate Individual Professional Development Plans (IPDPs), which is the core content of this document. - single page versions of each set of the Ohio Educator Standards;
- a section on Understanding and Using the Standards;

# Understanding and Using the Standards

---

The Ohio Standards for the Teaching Profession define the expectations for Ohio's teachers based on what is known about the traits and skills of effective teachers. The big ideas emphasized in the standards are:

**Standard 1** – Students: Effective teachers understand student learning and development, and respect the diverse students that they teach.

**Standard 2** – Content: Effective teachers have a deep understanding of the content they teach.

**Standard 3** – Assessment: Effective teachers understand and use varied assessments to evaluate student learning and inform instruction.

**Standard 4** – Instruction: Effective teachers plan and deliver instruction that is tailored to the needs of each student.

**Standard 5** – Learning Environment: Effective teachers create safe, supportive and respectful learning environments.

**Standard 6** – Collaboration and Communication: Effective teachers collaborate and communicate with students, parents, other educators, administrators and community members to support student learning.

**Standard 7** – Professional Responsibility and Growth: Effective teachers understand that professional development is a continuous process for which they are responsible.

## How These Standards Affect Teachers

The Ohio Standards for the Teaching Profession have not immediately changed the process of licensure; that process remains the same. The standards, however, inform initial licensure as institutions of higher education realign their programs and requirements to the standards, and entry year programs are analyzed to ensure that they adequately reflect the rigor of the standards. The Teacher Education and Licensure Standards reference the Ohio Standards for the Teaching Profession for more detailed descriptions of performance indicators in performance-based licensure for teachers and principals.

The Local Professional Development Committees (LPDCs) across the state continue to make decisions about licensure renewal. Teachers will continue to determine and set their own professional goals, using the process outlined in this document as guidance. *The Standards for Ohio Educators and Organizing for High Quality Professional Development* serve as guides for teachers in considering their professional growth across a developmental continuum from Proficient to Accomplished to Distinguished.

Senate Bill 2 directed the Educator Standards Board to define a “master teacher” in a manner to be used uniformly by all districts and to adopt multiple, equal-weighted criteria to use in determining whether a person is a master teacher. It also requires districts to report the number of master teachers employed in a district in the Education Management Information System (EMIS), and requires the Ohio Department of Education to include the number of master teachers employed by each district on the district and building local report cards.

A master teacher demonstrates excellence inside and outside the classroom through consistent leadership and focused collaboration to maximize student learning. A master teacher strives for distinguished teaching and continued professional growth as specified by the Ohio Standards for the Teaching Profession.

To be designated as a Master Teacher in Ohio, eligible educators must clearly demonstrate each of the following criteria:

- A. Consistent Leadership
- B. Focused Collaboration
- C. Distinguished Teaching – Focus on Students and Environment
- D. Distinguished Teaching – Focus on Content, Instruction and Assessment
- E. Continued Professional Growth

Several criteria are of particular interest to both LPDCs and individual educators preparing their IPDPs.

For example, serving as the chair of the LPDC may demonstrate (A) Consistent Leadership, or participation as a member of the LPDC or working with the LPDC to develop an IPDP may in part qualify under (B) Focused Collaboration.

Additionally, *Criterion E specifies*

Master Teachers engage in continuous professional development and reflection. They use multiple resources to shape the focus and goals of their professional development including student learning, assessment data, researched best practices and school and district goals. They evaluate their personal growth, understanding and application of knowledge and develop an appropriate professional plan.

The Local Professional Development Committee, as the group charged with evaluating educators’ IPDPs, may be called upon to assist educators with this portion of the application by providing them professional development documentation that may be a part of the LPDC’s files.

Candidates must provide labeled and referenced evidence to support their response to the item, below.

Describe your professional growth activities from the last three to five years.

Within your narrative, address the following:

- How you analyze your professional knowledge, strengths and weaknesses to develop targeted goals for professional growth
- How your professional development is linked to daily practice and student achievement data
- How your professional development integrates relevant and current best practices
- How your professional development has had an impact on student learning

The Process Model that follows was developed by a subcommittee of the Regional Local Professional Development Committee Support Team to facilitate the transition to an Individual Professional Development Plan (IPDP) evaluation rubric, as mandated by Senate Bill 2.

Aligning the process used by the Local Professional Development Committees (LPDCs) statewide provides a consistency of both systems and expectations for educators' individual professional development. Every effort was made to keep the process simple, yet open to customization by LPDCs as necessary. This four-step Process Model aligns with PLAN-DO-STUDY-ACT and with the Ohio Improvement Process.

- examine their practice;
- determine priorities and goals;
- complete the IPDP according to the LPDC policy; and
- obtain pre-approval from the LPDC (per district policy)

New to the IPDP language is the inclusion of “SMART” goals.

# Process Model

## Examine Your Practice

- 1 Examine multiple sources of data
- 2 Complete the appropriate educator standards' self-evaluation
- 3 Consider school and district goals
- 4 Provide a goal rationale

## Determine Priorities and Goals

- Prioritize your needs
- Relate goals to license, current assignment, future plans, district/building goals
- Write SMART goals, which can be modified as needed

# Individual Professional Development Plan (IPDP) Rubric

## Directions:

The Individual Professional Development Plan (IPDP) Rubric provides Local Professional Development Committees (LPDCs) a standards-based evaluation tool which the LPDC should use to evaluate IPDPs.

First, educators should use the Standards for the Teaching Profession and the Standards for Principals, particularly the evaluation tools contained in this manual, to develop their IPDP goals.

Next, the LPDC should evaluate the IPDPs using the IPDP Rubric, which follows.

The IPDP Rubric is organized into six parts corresponding to the six Professional Development Standards. Each standard includes an Essential Question, which captures the essence of the standard.

The committee should check each IPDP against the Essential Question and scoring guidelines for each standard.

EACH standard must score adequate to exemplary in order for the IPDP to be approved. LPDCs may wish to develop score summary sheets, like the chart below, on which to record IPDP scores.

**Standard 1: High Quality Professional Development (HQPD) is a purposeful, structured and continuous process that occurs over time.**

To meet the specific needs of students, professional development must focus on the strategic plan of the district or the priorities of the individual school. Therefore, an educator’s Individual Professional Development Plan (IPDP) must align with stated priorities and approved building or district goals.

Standard 1 Essential Question: Is PD purposefully structured to occur over time?

- YES, use the scoring guidelines below.
- NO, the plan needs revision for Standard 1.

*Rate each item across the rows, selecting the ONE which best represents the IPDP being evaluated.*

**Standard 2: High Quality Professional Development (HQPD) is informed by multiple sources of data.**

To meet the specific needs of students, professional development must be based on an analysis of multiple sources of data. An educator’s IPDP must reflect an examination of student or other relevant educational data, as well as an assessment of the educator’s own skills and knowledge against Ohio’s Standards for Educators.

Standard 2 Essential Question: Is the focus of the IPDP based on an examination of multiple sources of data?

- YES, use the scoring guidelines below.
- NO, the plan needs revision for Standard 2.

## Standard 3: High Quality Professional Development (HQPD) is collaborative.

High quality professional development encourages the collaboration of educators. An IPDP should delineate opportunities for collaboration and communication with other educators and administrators.

Standard 3 Essential Question: Does the IPDP provide opportunities for the individual to work with other educators?

- YES, use the scoring guidelines below.
- NO, your plan needs revision for Standard 3.

**Standard 4: High Quality Professional Development (HQPD) includes varied learning experiences that accommodate individual educators’ knowledge and skills.**

High quality professional development must accommodate the individual educator’s level of knowledge and skill. Learning experiences should vary in intensity and duration and promote opportunities for self-directed, life-long learning. The sequence of learning experiences in the IPDP should enable the educator to systematically learn and implement new skills and knowledge.

Standard 4 Essential Question: Does the IPDP meet the needs and experiences of an adult learner?

- YES, use the scoring guidelines below.
- NO, your plan needs revision for Standard 4.

**Standard 5: High Quality Professional Development (HQPD) is evaluated by its short and long-term impact on professional practice and achievement of all students.**

Evaluation data inform continuous improvement by identifying the effects of professional development in terms of intended outcomes. An educator’s IPDP must include reflections and a planned evaluation.

Standard 5 Essential Question: Is a combination of evaluative measures planned to assess the effectiveness of PD over time?

- YES, use the scoring guidelines below.
- NO, your plan needs revision for Standard 5.
